

## Space Council Annual Investment Levels

The **Space Council** of Ascend Brevard, Inc., the 501(c)(3) Foundation of Accelerate Brevard, plays a pivotal role in shaping the future of the space industry, championing increased funding, and cultivating a vibrant ecosystem that supports both commercial ventures and government initiatives. Investing in the **Space Council** is an investment in innovation, economic growth, and national leadership in space exploration and technology.

By supporting the Council’s initiatives, stakeholders can accelerate advancements that position the region as a competitive leader in the global space economy, attract top-tier talent, and strengthen collaboration between private enterprises and government agencies.

This strategic investment not only bolsters the space sector but also generates positive ripple effects across industries, fostering job creation, driving technological innovation, and contributing to regional prosperity.

Funding for the Council enables impactful initiatives, including participation in space-focused conferences, sponsoring students for the annual Citizens for Space Exploration trip, and supporting various programs that advance the space industry and its ecosystem.
